CUSTOM SOLUTIONS

All Giant Titan websites are completely custom. Template websites are improperly coded and tend to get lost in the world wide shuffle. Our clients have the reassurance and uniqueness necessary to thrive in a digital world.

CONTENT MANAGEMENT

We create a custom Content Management System (CMS) for every client. With this, even novice users can update their website and manage their content without the expensive service fees most developers charge. This comes at no additional cost.

MOBILE & IPAD WEBSITES

Don't limit yourself. One-third of all Americans use their phones to access the internet. This number is increasing dramatically. Mobile sites allow your customers to see what you're up to nearly everywhere. See our pricing sheet for more details.

SPECIALTY PAGES

Specialty Pages are a great way to interact with your customers. They offer advance functionality and are updated using your custom CMS.

BLOGGING & SOCIAL MEDIA

Both blogging and utilizing Social Media are the best ways to improve your website traffic. We will integrate your Social Media sites so your customers are never out of the loop.

ECOMMERCE

PayPal pages are different from E-Commerce pages. E-Commerce sites allow your customer to purchase items without going through an intermediary.

DESCRIPTION OF PACKAGE INCLUSIONS

SOCIAL PAGES

Social Media platforms are one of the best way to keep in touch with your customers. We will set up your Social Media page and integrate it with your website. Popular Social Media sites include: Facebook, Twitter, Google+, YouTube, Foursquare, Yelp, and LinkedIn.

BASIC FACEBOOK APPLICATION

A Facebook Application is one of the best way to set yourself apart from competitors already utilizing the power of Social Media. This is a stylized and branded application that allows you to post text, post video, post images, and share content. When this application is downloaded, you receive your customer's email address and contact information. This can be purchased A La Carte if it is not included in your package.
